JALNIRIKSHAK

From Water Sample → Water Intelligence → Better Action

BUSINESS MODEL CANVAS

Portable • Smart • Scalable

CUSTOMER SEGMENTS

Government Water Authorities
Jal Jeevan Mission / Local Departments
Water Testing Agencies
Research Institutions
Field Water-Quality Teams

KEY PARTNERSHIPS

Government Departments
Testing Laboratories
Research Institutions
Technology Suppliers
Environmental / Field Agencies

KEY ACTIVITIES

Product Development
Testing & Validation
PFAS & Microplastic Modules
AI & GIS Monitoring
Field Deployment
Training & Support

CUSTOMER RELATIONSHIPS

Guided Workflow
Operator Training
Technical Support
Calibration & Maintenance
Digital Reporting

① SCREEN

PFAS + Microplastics

② VERIFY

QC + Repeat + Lab Confirmation

③ MONITOR

GPS + GIS + Digital Records

④ ACT

Retest , Investigate, Intervene

JALNIRIKSHAK
Portable Water Screening & Digital Surveillance

VALUE PROPOSITION

Portable Field Screening
PFAS + Microplastic Screening
Traceable Sampling
AI-Assisted Analysis
Digital Monitoring
Screen → Verify → Act

REVENUE STREAMS

Kit Sales
PFAS Cartridges & Filters
Maintenance & Calibration
Digital Monitoring
Custom Deployment

KEY RESOURCES

ESP32 + Raspberry Pi
Sensors & Sampling Hardware
PFAS + Microplastic Modules
AI / Computer Vision
GIS Platform

CHANNELS

Government Procurement
Pilot Programs
Institutional Partnerships
Testing Agencies
Research Collaborations

SUSTAINABILITY

KIT SALES→ CONSUMABLES→ MAINTENANCE→ DIGITAL MONITORING→ SCALE

COST STRUCTURE

Hardware & Sensors→ PFAS/Filters→ Software & AI→ Testing & Validation→ Deployment & Support
